7.Write a Java Program to Print 1 To 10 Without Using Loop.

```
        Start
          |
          v
       int n=1
          |
          v
       Print n
          |
          v
      int n=n+1
          |
          v
      If(n<10)  --True--> (back to Print n)
          |
        False
          |
          v
        End
```
